- Developed a real time chat application where it aims to provide seamless real time-communication between users.
- A clean and intuitive interface allows users to navigate the app effortlessly, focusing on their conversations without being hindered by complex functionalities.
- Tech Stack:-MongoDB,ReactJs,ExpressJs,NodeJs,Zustand

  GITHUB

CERTIFICATIONS

Industrial Training on Data Science, Artificial Intelligence, Machine Learning Using Python   Jan 2024-Feb 2024
Ardent Computech Pvt. Ltd.
Description:- Developed a Drowsiness Detector System using Python,Cv2 and Keras.
GITHUB

EDUCATION

B. Tech. in Computer Science and Engineering(Data Science)   August 2021 - Present
Future Institute of Engineering and Management (Under MAKAUT)
CGPA – 8.61(Till 5ᵗʰ Sem)

Higher Secondary: 86.33%   May 2019- August 2021
CBSE

Secondary: 86%   May 2012 - May 2019
ICSE

SKILLS

Hands on experience on Javascript,NodeJs,MongoDB,Reactjs,Python,Redux,Flask,MySql,Git

Subjects of Interest

Data Structure and Algorithm, Object Oriented Programming System(OOPs)

Extra-Curricular Activity

- Photography Head of Team Xplorica-The Offical Techno Management Club of FIEM
- Designing and Photography Volunteer at GDG Cloud Kolkata
- Core Member of Google Developer Students Club,FIEM
